

Version: 2.01  
Revision Date 02.01.2024

## **SAFETY DATA SHEET**

according to the REACH Regulation (EC) 1907/2006 amended by Regulation (EU) 2020/878 Issue  
date: 25/01/2024 Version: 1.0

### **SDS SECTION 1: Identification of the substance/mixture and of the company/undertaking**

#### **1.1 Product identifier**

Trade names: The Inked Army | Flash Black – Liner Black – Light Grey Wash –  
Medium Grey Wash – Dark Grey Wash  
Form: aqueous mixture

#### **1.2 Relevant identified uses of the substance or mixture and uses advised against**

Use of the Substance/Mixture : Tattoo ink for professional use only.  
Uses advised against : No additional information available.

#### **1.3 Details of the supplier of the safety data sheet**

The Inked Army GmbH  
Wilhelm-Maybach-Strasse 1  
89312 Guenzburg, Germany  
info@inkedarmy.com

#### **1.4 Emergency telephone number**

Tel. +49 8221 2573360(company)  
Tel. 112 (emergency number)

### **SECTION 2: Hazards identification**

#### **2.1. Classification of the substance or mixture**

A water-based mixture of black pigments and additives.

Classification according to Regulation (EC) No. 1272/2008 [CLP] - Not classified

#### **2.2. Label elements**

Not a hazardous mixture according to Regulation (EC) No. 1272/2008.

#### **2.3. Other hazards**

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### SECTION 3: Composition/information on ingredients

#### 3.1. Substances

Name	Product identifier	Concentration	Classification according to Regulation (EC) No. 1272/2008 [CLP]
Demineralized water	-	0 - 80 %	-
Glycerine	CAS: 56-81-5 EC: 200-289-5	0 - 20 %	-
CI 77266	CAS: 1333-86-4 EC: 215-609-9	0 - 15 %	-
Ethanol	CAS: 64-17-5 EC: 200-578-6	0 - 5 %	Flam. Liq. 2; H225
Ammonium acrylates copolymer	Proprietary	0 - 5 %	-
Iron (II,III) oxide	CAS: 1317-61-9 EC: 215-277-5	0 - 1 %	-
3-phenylpropan-1-ol	CAS: 122-97-4 EC: 204-587-6	0 - 0,5 %	Eye Dam. 1 (H318) Skin Corr. 1B (H314)

CI77266 and iron (II,III) oxide are present in the products in nanoform clusters.

#### 3.2. Mixtures

No data available.

### SECTION 4: First aid measures

#### 4.1. Description of first-aid measures

##### Eye contact:

Remove contact lenses. Immediately flush eyes with water for at least 10 minutes. Seek help from an ophthalmologist.

##### Inhalation:

Provide access to fresh air. Provide a person warmth and peace. If a person is not breathing, is breathing irregularly, or if breathing has stopped, qualified personnel should give artificial respiration or administer oxygen.

##### Skin contact:

Take off contaminated clothing and shoes. The skin should be washed thoroughly with soap and water or a proven skin cleanser should be used. Do NOT use solvents or thinners.

##### Consumption:

If swallowed, consult a doctor immediately and show the packaging or label. Provide the person warmth and peace. Do NOT induce vomiting.

##### Protection of first aiders:

No action should be taken involving any personal risk or without suitable training. May be dangerous to the person providing mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it or wear gloves.

#### 4.2. Most important symptoms and effects, both acute and delayed

Potential acute health effects:

Inhalation: No known significant effects or critical hazards.

Ingestion: No known effects or critical hazards.

Skin contact: May cause allergic reaction.

Eye contact: No known significant effects or critical hazards.

Excessive exhibition:

Skin contact: irritation, redness.

Ingestion: No specific data.

Inhalation: No specific data.

Eye contact: No specific data.

#### 4.3. Indication of any immediate medical attention and special treatment needed

Notes to physician: In case of inhalation of decomposition products in a fire, symptoms may be delayed. The exposed person may need to be kept under medical surveillance for 48 hours.

Specific treatments: no specific data.

### SECTION 5: Firefighting measures

#### 5.1. Extinguishing media

Suitable extinguishing media: alcohol resistant foam, CO<sub>2</sub>, powder, water spray.

In a fire or if heated, a pressure increase will occur and the container may explode.

Unsuitable extinguishing media: water jet.

#### 5.2. Special hazards arising from the substance or mixture

Combustion products: carbon oxides, nitrogen oxides, sulfur oxides.

#### 5.3. Advice for firefighters

Put on gas-tight protective clothing and breathing apparatus independent of the ambient air.

### SECTION 6: Accidental release measures

#### 6.1. Personal precautions, protective equipment and emergency procedures

No action should be taken involving any personal risk or without suitable training. Evacuate people from nearby areas. Do not grant entry permission to unnecessary and unsecured personnel. Do not touch or walk over spilled material. Avoid breathing vapors or mists. Provide adequate ventilation. In case of insufficient ventilation, an appropriate mask must be worn. Put on appropriate personal protective equipment.

Personal protection in section 8.

#### 6.2. Environmental precautions

Avoid dispersal of spilled material, runoff or contact with soil, waterways, drains and sewage systems. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air). Water polluting material. May be harmful to the environment if released in large amounts.

### 6.3. Methods and materials for containment and cleaning up

Small leak:

Stop leak if without risk. Remove containers from spilled area. Dissolve in water and collect if water-soluble. Alternatively, if water insoluble, soak up with an inert dry material and place in an appropriate waste disposal container. Utilize at a licensed waste disposal contractor.

Large leak:

Stop leak if without risk. Remove containers from spilled area. Come to release from the wind. Secure the outlets of the sewage system, water installations and entrances to cellars and closed areas. Wash any spills into a sewage treatment plant or proceed as follows. Spilled or spilled substances should be collected with the use of non-flammable substances such as: sand, earth, vermiculite, diatomaceous earth. Then place in containers and dispose of in accordance with local regulations. Utilize at a licensed waste disposal contractor. Contaminated absorbent material may present the same hazard as a spilled product.

### 6.4. Reference to other sections

See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information. The information in this section contains generic advice and guidance. For information on specific uses according to the exposure scenarios, please refer to the identified uses list in Section 1.

## SECTION 7: Handling and storage

### 7.1. Precautions for safe handling

Put on appropriate personal protective equipment (see Section 8). People with a history of skin sensitization problems should not be employed in any process using this product. Avoid contact with eyes, skin, or clothing. Do not swallow. Avoid breathing vapors or mists. Avoid release to the environment. Store in original container or an approved alternative container made of compatible material and tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not re-use the container.

Food, drink, and smoking should be prohibited in any area where this material is stored, handled and processed. Workers should wash their hands and face before eating, drinking or smoking. Before entering the dining room, remove contaminated clothing and protective equipment. See also Section 8 for additional information on hygiene measures.

Do not allow the mixture to dry out on its own and create dust.

### 7.2. Conditions for safe storage, including any incompatibilities

Store between the following temperatures: 0 to 35 °C (32 to 95 °F). Store in accordance with local regulations. Store in the original package, away from direct sunlight; in a dry, cool and well-ventilated room; away from incompatible materials (see Section 10), drinks and food. The container should remain closed and sealed until use. Containers that have been opened must be resealed and stored upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. Before starting the transshipment or use, read the information on incompatible materials contained in sections 10,11 and 12.

### 7.3. Specific and use(s)

No specific data.

## SECTION 8: Exposure controls/personal protection

### 8.1. Control parameters

Ingredients with parameters subject to control at the workplace.

CAS No.	Ingredient	Source	Value
1333-86-4	CI 77266	OSHA	TWA 3.5 mg/m <sup>3</sup>
		ACGIH	TWA: 3 mg/m <sup>3</sup>
		NIOSH	TWA 3.5 mg/m <sup>3</sup> Ca TWA 0.1 mg PAHs/m <sup>3</sup>
		National	No Established Limit
Proprietary	Ammonium acrylates copolymer	OSHA	No Established Limit
		ACGIH	No Established Limit
		NIOSH	No Established Limit
		National	No Established Limit
56-81-5	Glycerine	OSHA	TWA: 15 mg/m <sup>3</sup>
		ACGIH	TWA: 3 mg/m <sup>3</sup>
		NIOSH	No Established Limit
		National	No Established Limit
64-17-5	Ethanol	OSHA	TWA: 1900 mg/m <sup>3</sup>
		ACGIH	No Established Limit
		NIOSH	TWA: 1900 mg/m <sup>3</sup>
		National	No Established Limit
122-97-4	3-phenylpropan-1-ol	OSHA	No Established Limit
		ACGIH	No Established Limit
		NIOSH	No Established Limit
		National	No Established Limit
1317-61-9	Iron (II,III) oxide	OSHA	TWA: 10 mg/m <sup>3</sup> (fume)
		ACGIH	TWA: 5 mg/m <sup>3</sup> (respirable)
		NIOSH	TWA: 5 mg/m <sup>3</sup>
		National	No Established Limit

### 8.2. Exposure controls

Provide adequate general ventilation in the room and local ventilation at the workplace. Provide a shower and an eyewash station.

Inhalation:

No respiratory protection is required when properly handled. Mask must be used if vapors / dust / smoke / aerosols are released. Respirator selection should be made based on the known or expected exposure level, product hazards, and the safety limits of the mask selected. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Use a respirator meeting the EN140 standard. Filter type: Organic Vapor Filter (Type A) and P3 Volatile Particulate Filter.

Eye and face protection:

Use protective glasses with side shields. Use eye protection in accordance with EN 166.

Hand and skin protection:

Use protective clothing made of natural materials or synthetic fibers. Body exposure should be minimized when handling the mixture. Use footwear intended for use in industrial plants to protect the feet. They are subject to approval by a health and safety specialist. Use gloves made of chemical resistant rubber to protect your hands. Taking into account the parameters specified by the glove manufacturer, check that the gloves retain their protective properties during use (in accordance with EN 374).

Environmental exposure controls:

No special preventive measures are required, apart from those mentioned in section 6.

## SECTION 9: Physical and chemical properties

### 9.1. Information on basic physical and chemical properties

a	Form	liquid
b	Colour	black
c	Odor	characteristic
d	Melting/freezing point	No data available
e	Initial boiling point and boiling range	No data available
f	Flammability	No data available
g	Lower and upper explosion limit	No data available
h	Flash point	No data available
i	Auto-ignition temperature	No data available
j	Decomposition temperature	No data available
k	pH	No data available
l	Kinematic viscosity	No data available
m	Solubility	No data available
n	Partition coefficient: n-octanol/water	No data available
o	Vapour pressure	No data available
p	Density	No data available
q	Relative vapour density	No data available
r	Particle characteristics	See section 3.1
s	Explosive properties	No data available
t	Oxidizing properties	No data available

### 9.2. Other safety information

No data available.

## SECTION 10: Stability and reactivity

### 10.1. Reactivity

No data available.

### 10.2. Chemical stability

The product is chemically stable under standard ambient conditions (room temperature).

### 10.3. Possibility of hazardous reactions

Violent reactions possible with:  
The generally known reaction partners of water.

### 10.4. Conditions to avoid

No data available.

### 10.5. Incompatible materials

Strong oxidizing agents.

### 10.6. Hazardous decomposition products

See section 5.

## SECTION 11: Toxicological information

### 11.1. Information on hazard classes as defined in Regulation (EC) No 1272/2008

Mixture

Acute toxicity

Oral: No data available

Inhalation: No data available

Dermal: No data available

Corrosive / irritating effect on the skin

No data available

Serious eye damage / eye irritation

No data available

Respiratory or skin sensitization

No data available

Mutagenic effect on reproductive cells

No data available

CAS	Ingredient	Oral LD50, mg/kg	Skin LD50, mg/kg	Inhalation Vapour LC50, mg/L/4hr	Inhalation Dust/Mist LC50, mg/L/4hr	Inhalation Gas LC50, ppm
1333-86-4	CI 77266	> 10000, Rat - Category: NA	No data available	No data available	No data available	No data available
Proprietary	Ammonium acrylates copolymer	> 2000, Rat	No data available	No data available	No data available	No data available
56-81-5	Glycerine	23000, Mouse	17100, Rabbit	No data available	No data available	No data available
64-17-5	Ethanol	10470, Rat	17100, Rabbit	12470, Rat	No data available	No data available
122-97-4	3-phenylpropan- 1-ol	2250, Rat	5000, Rabbit	No data available	No data available	No data available
1317-61-9	Iron (II,III) oxide	> 5000, Rat	No data available	No data available	No data available	No data available

Carcinogenicity

No data available

Harmful effect on reproduction

No data available

Toxic effect on target organs - single exposure

No data available

Specific target organ toxicity - repeated exposure

No data available

Aspiration hazard

No data available

### 11.2. Additional information

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2018/605 or Commission Regulation (EU)2017/2100 at levels of 0.1% or higher.

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

Hazardous properties cannot be excluded but are unlikely when the product is handled appropriately.

## SECTION 12: Ecological information

### 12.1. Toxicity

No data available.

### 12.2. Persistence and degradability

No data available.

### 12.3. Bioaccumulative potential

No data available.

### 12.4. Mobility in soil

No data available.

### 12.5. Results of PBT and vPvB assessment

This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.

### 12.6. Endocrine disrupting properties

The substance/mixture does not contain components considered to have endocrine disrupting properties according to REACH Article 57(f) or Commission Delegated regulation (EU) 2017/2100 or Commission Regulation (EU) 2018/605 at levels of 0.1% or higher.

### 12.7. Other adverse effects

No data available.

## SECTION 13: Disposal consideration

### 13.1. Waste treatment methods

Sewage disposal recommendations: Do not dispose of waste into sewer.

Product/Packaging disposal recommendations: Incinerate. Dispose in a safe manner in accordance with local/national regulations.

Ecology - waste materials: Avoid release to the environment.

## SECTION 14: Transport information

### 14.1. UN number

ADR/RID: -      IMDG: -      IATA: -

### 14.2. UN proper shipping name

ADR/RID: Not dangerous goods.

IMDG: Not dangerous goods.

IATA: Not dangerous goods.

#### 14.3. Transport hazard class(es)

ADR/RID: -      IMDG: -      IATA: -

#### 14.4. Packaging group

ADR/RID: -      IMDG: -      IATA: -

#### 14.5. Environmental hazards

The substance does not pose any particular threat to the environment.

#### 14.6. Special precautions for user

Not classified as dangerous in the meaning of transport regulations.

#### 14.7. Maritime transport in bulk according to IMO instruments

Not applicable.

### SECTION 15: Regulatory information

#### 15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

This material safety data sheet complies with the requirements of Regulation (EC) No. 1907/2006.

#### 15.2. Chemical Safety Assessment

For this product a chemical safety assessment was not carried out

### SECTION 16: Other information

*The above information is believed to be correct but not exhaustive and should be considered only as recommended precautionary measures when handling the product. The information contained in this safety data sheet is based on the present state of technical and scientific knowledge. The purpose of this information is to draw attention to the obligation to comply with the safety and health rules set out in this safety data sheet with regard to the products we supply, including the recommended precautions related to their use and storage. The safety data sheet does not constitute a technical specification of the product and under no circumstances can it be used as a product warranty document. Failure to comply with the rules described in this safety data sheet, including in particular the use of appropriate precautions or the proper use of products, releases us from any liability for any damage suffered.*
